- Other Mental Health Diagnoses

*Our newest community-based
service, is here to help...*

Mending Point Counseling Clinic offers effective in-office therapeutic services for both adolescents and adults. We believe in developing cooperative relationships with clients of all ages to achieve positive mental health development and growth.

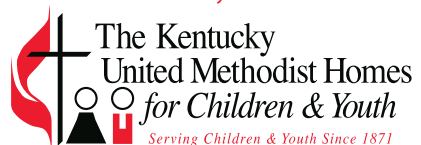

Much like physical health, mental health can improve with proper treatment. Our licensed clinicians are here to provide mental health assessments, individualized treatment plans and proven counseling approaches. Mending Point helps bring wholeness to lives impaired by mental health disorders.

For additional information and appointments:
